LOW WATER AT LOUISVILLE.

(Friday's Courier-Journal.)

Gradually demoralizing the river traffic, the low water reached the climax of its work when not a packet cleared the local wharf yesterday. The Tell City, the last boat of any size to remain in the trade, was compelled to "tie up" upon her arrival here yesterday morning. As the Louisville & Cincinnati Packet Company did not have a light-draft boat here which they could substitute for her, the day passed not only without any of the Evansville packets, which have been out of commission for several weeks, clearing, but also without a packet bound for upper river points leaving. Although traffic at times has been suspended because of the ice in the river, yesterday was the first time in a number of years that the low water had reached such a stage that not a boat cleared.

PRAYERS

To Be Offered at Episcopal Church Tomorrow Morning for Peace of World—Public Invited to Attend

The services at the Church of the Nativity Sunday morning will be of a special order, in accordance with the request of the President that prayers may be offered up to Almighty God that out of His wise providence the present wars throughout the world may cease, and peace be brought to the distracted lands.

Come and pray with us as citizens and churchmen. You will be welcome. The prayers of God's people availeth much.

The following is a prayer authorized by the Bishop of the Diocese, which you may use in your private devotions:

O God Almighty, that rulest and commandest all things: So intervene between the nations at war, that the progress of Thy Kingdom shall not be set back, and that the wrath and greed of men shall be made to praise Thee. Preserve our land and people inviolate; and may our country do in righteousness the things that make for peace. Minister in Thy infinite pity to those who shall suffer the calamities of war. And finally establish everywhere the reign of the Prince of Peace, in whose name we shall ever pray for the peace of the world, Thy Son, our Savior, Jesus Christ, Amen.

A most cordial invitation is extended to the public to attend this service.

J. H. FIELDING, Rector.

ALLIES ADVANCING

Pushing the Germans Back Steadily—Tremendous Carnage Continues

Belgians Repulse the Teutons Storming Antwerp

LATEST WAR BULLETINS

London, England, Oct. 2.—The battle of the Aisne—as it is still called, although the armies contending in it have spread far beyond that river—now has been in progress just three weeks and no decision has been reached. Reports from Paris that the allies' operations were about to succeed were premature. From all appearance there must be more hard fighting.

The heaviest blows are being given and taken in the western area where, according to today's French official communication, an extremely violent battle continues, especially in the Roye district, where the Germans have concentrated. The communication added that the action was extending more and more northward and that the fighting front extended to the district south of Arras.

Petrograd, Oct. 2.—The General Staff has given out the following official communication:

"The Russian troops have continued to repulse the enemy from the boundaries of the Governments of Suwalki and Lomza. The engagement has been very fierce west of Symon."

"The German troops that were attacking Osewetz are retreating hastily to the North. Considerable forces of the enemy, of which the bulk arrived from the West, are concentrating in the districts west of the Governments of Piotrkow and Kielce."

"The Russian cavalry and vanguard are reconnoitering energetically through all that region, impeding through vigorous attacks the movement of the enemy. The Germans always endeavor to use the highways in Russian territory because the other roads, being rough, paralyze their artillery trains."

London, Oct. 2 (1:10 p. m.)—Unless all signs are awry, the German armies in France, or at any rate most of them, are nearing the completion of their round trip. This, it is held here, is the only conclusion—hinted at even by the Berlin newspapers—to be drawn from the reports, both official or unofficial, of those on or near the scene of action.

It is evident that the progress of the Allies on their left is considerable, while the hole through which the Germans might have pierced the line of French fortresses on the Meuse river side has been stopped.

The fierce battling around the heights of Roye, to the north-west of Noyon, seems to have ended in favor of the French. The heights were captured by Gen. von Kluck's men on Wednesday, but on Friday, according to a French report, the Allies regained control of the position.

A correspondent of the Central News at Calais, who has returned to that city from a tour in the vicinity of the Allies' left, says:

"Without disclosing military secrets I can say that I have seen many things to remove any misgivings as to the outcome of the battle. The moment is near when the curtain will be lifted on the greatest drama ever seen in war. "The position of the German right wing on Wednesday was such that a portion lying between Lassigny and Chaulnes was in extreme danger."

Over Half Million People in Brussels Will Lack Food.

London, Oct. 2.—Seven hundred thousand persons in Brussels are facing starvation, according to Hugh Gibson, the secretary of the American embassy, who is now in this city.

The supply of flour in the Belgian capital will be exhausted today and other staples are virtually all consumed. The last apportionment of flour to the citizens of Brussels will be given out this afternoon.

Efforts to get food in from Antwerp have failed. Inasmuch as Brussels is in charge of the Germans, it is in effect German territory. Neutral nations could not undertake to supply food to Brussels, even if transportation facilities were not practically cut off because of military operations.

Cologne Defense.
London, Oct. 2.—A despatch from Copenhagen to the Times declares that extensive preparations are being made in Cologne for the defense of the city against a possible attack.

Latest War Bulletins.

St. Louis.—A rush order for 110,000 barrels of flour was placed with a local milling company by representatives of one of the warring European nations, the identity of which was not disclosed. This is the largest single sale of flour ever made here. The flour will be made of Kansas wheat and will require 540,000 bushels.

London.—The British War Office has issued a call for 1,000 expert railroad men to assist in the operation of the French railways.

Mr. Stevens writes Lexington friends that he has been trying for several years to make his arrangements to attend the Tots but up to this time he has always been disappointed but that this year, he has a "clear track" to Lexington. The Stevens party has reserved a box for the opening days of the Tots, and the outing will also include an automobile tour of the Blue Grass region and a visit to the various famous farms in this section.

Every garment must pass 100 per cent. in quality, style and moderate price before it finds a place in our stock. Quantity is necessarily limited but you will find the same styles here New York stores are showing and in every instance the price is less, because the cost of doing business, which must be reckoned in fixing profits, is so much less in a town than in a city.
